

JDM TO USDM LICENSE PLATE BRACKET ADAPTER

The BLOX Racing license plate adapter will adapt US license plates to JDM OEM plate locations.

Rear License Plate

Step 1: Install the BLOX license plate adapter using (2) of the supplied bolts. You will install them on to the outer location

Step 2: Put the other (2) bolts through the US plate frame, with the provided spacers on their other side.

Step 3: Screw the bolts on to the adapter using the inner two holes.

Front License Plate – Repeat process from rear license plate install.
